Ah ha!

Okay, here you should have:

- Response to 1<sup>st</sup> interagency comments
- RambollEnviron briefing from August 2016
- Yamada briefing from June 22, 2017
- Internal analysis of the new studies (prepared by Allen Davis). These analysis were shared with a DOJ/OECA toxicology consultant, John Wilhelmi, who (verbally) agreed with the assessment. This was never provided to Denka. It was provided to R6, OAQPS, OECA, DOJ.

Let me see if I can find a time for us to chat early next week....

Happy to try to help. But some memory jogging is needed.

I can find the 2010 interagency comments on the web, but I cant seem to find the EPA response to the interagency comments. That used to get posted along with the interagency comments. Can you help me find them?

Thanks.

**Subject:** Chloroprene

Nancy,

The briefing with Richard today on chloroprene was very informative – before the meeting with Denka et al., we thought it would be good to understand your views of the 2010 IRIS assessment, which I assume you know well from your time at OMB.

Do you have time to discuss – either tomorrow or early next week? I believe the Denka meeting is the Wednesday, June 28 (??)

Thanks....and hope all is well - k
